FAMO: WORKING TOGETHER

[ABOUT US](#) | [PRODUCTS](#) | [PROJECTS](#)

Every day a lot of ideas arise...
But only a few have the power to change everything.

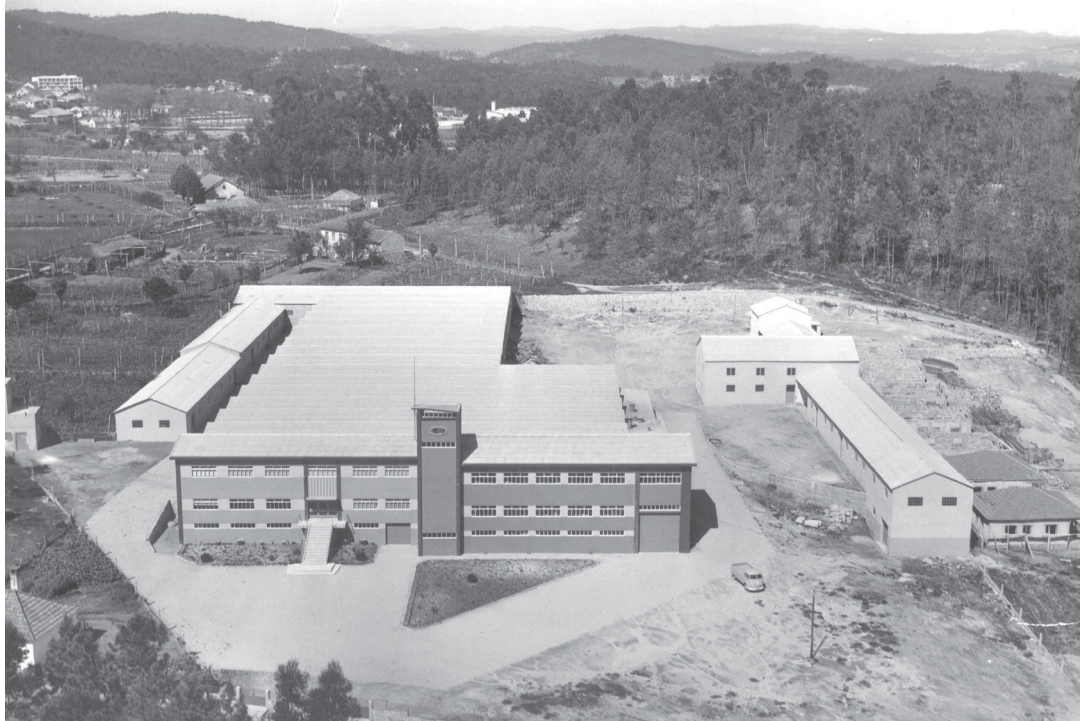

HISTORY

One idea can change everything.

In 76 years, one idea became one of the most ambitious projects in the Portuguese office furniture industry. On **14 August 1947**, **Mr. Jaime Pinto de Moura** founded FAMO.

FAMO – Steel Office Furniture – a new project, with a new implicit concept of quality. A new approach based on creativity and experience.

MANAGEMENT POLICY

Customers and markets

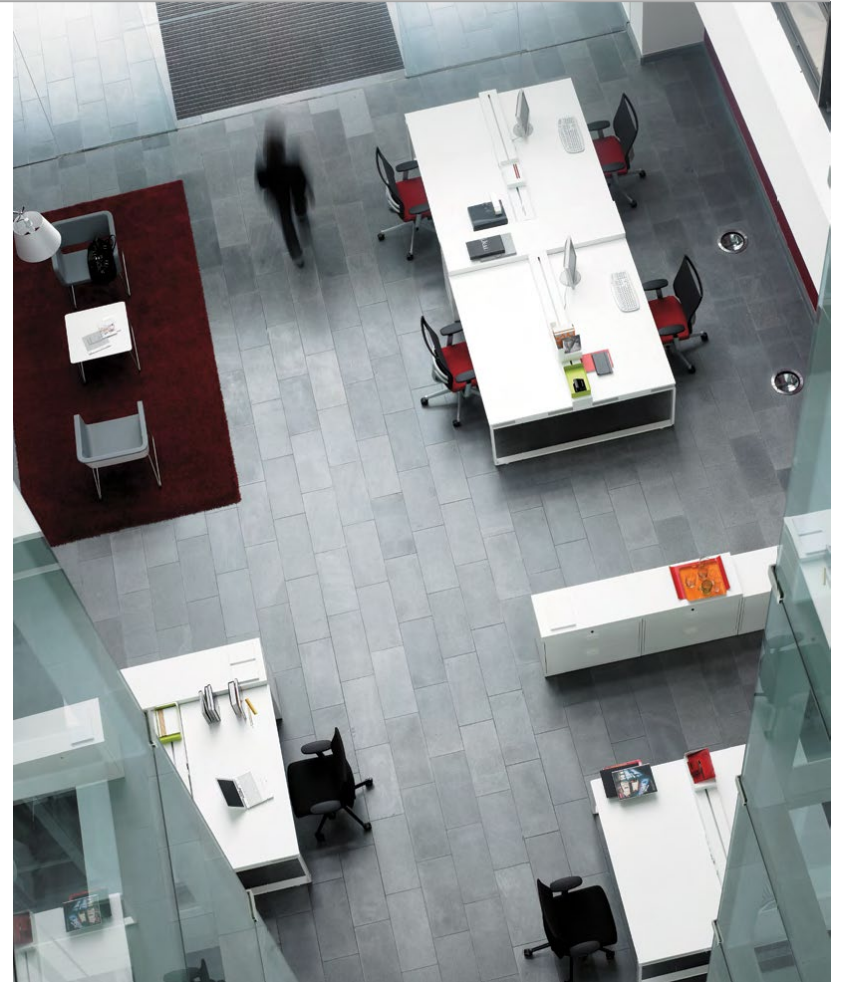

Listening to our people, identifying and advancing their needs, satisfying and exceeding expectations.

Quality and Organization

Fulfilment of management system procedures, of the requirements applying to our activity (customer, statutory and legal) and guiding organizational strategies with a perspective of continuous improvement, by regularly reviewing processes, policy, goals and targets.

Environment

We are conscious that in small details we can contribute to improve quality of life to current and future generations, in direction of social and environmental responsibility. That takes us to assume a serious environmental commitment and pollution prevention. Following this view, the strict compliance of standards established by our company, goes beyond the simple compliance of legal requirement.

MANAGEMENT POLICY

Technology and Innovation

We bet on technological improvement and updating in the organization, as well as increasing the level of products/ services innovation according to tendencies and necessities of different markets.

Association

Stimulate the growth, commitment and motivation amongst all collaborators and distributors, to get involved in the day by day of company goals and targets; provide commitment relations with all the stakeholders, based on a spirit permanent collaboration to promote supplying of better information, goods and services.

Results

To increase productivity and quality levels, guarantee adequate management strategies, to increase the profit of the company and supply funds to growth through the reinvestment.

FAMO: WORKING TOGETHER

ABOUT US | PRODUCTS | **PROJECTS**

The FAMO projects department provides space planning services, implementing in 3D the chosen product line, making its framework on the space to be occupied or reshaped more perceptibly. In “turn-key” projects, our projects department analyses and studies the most appropriate solutions regarding the space creation of functional offices, with a modern environment and adapted to the client’s image.
